## TEAM 2

PLAYER	1	2	3	4	5	6	7	8	SCORE
TOTAL									

**MOUTH = 5 | EYES = 10 | STEM = 15 | NOSE = 25**  
**TEAM WITH THE MOST POINTS AFTER EIGHT TURNS WINS**

**Halloween Game Rules** - Each player takes a turn throwing three darts at the target from a distance of eighteen feet away from the target. The score keeper adds their total points to the score card for that turn, removes the darts from the target and gives them to the next player up. Any dart that bounces off or misses the Jack O' Lantern on the target does not score any points and cannot be re-thrown.

**Scoring** - Print out one or more of our downloadable score cards and write the name of each player from each team in the "PLAYER" box. The first player on team #1 then takes a turn throwing the three darts at the target. Any scoring hits are added up and written in the first (1) turn box. Next, the first player on team #2 takes a turn and so on, with team players alternating back and forth. The Mouth is worth 5 points, the Eyes are worth 10 points, the Stem is worth 15 points and the Nose is worth 25 points. The team that has the most points after eight turns wins the game.

**Caution** - Darts can be dangerous! All players should be read and understand these safety rules. Never point or throw a dart at anyone. Never throw darts at anything other than the dartboard. All players and observers should stand well behind the active player, never to the side or in front of the thrower. No one should stand near or walk in front of the dartboard when a player is throwing. Thrown darts will occasionally bounce off the dartboard. Make sure the dartboard is attached securely to the wall, darts rebound more easily off the board if it is not secure.

Darts are not toys and can cause serious injury! Keep darts somewhere that is out of reach of children. Young children should not be allowed to play with darts at all. Older children should only play darts with strict adult supervision. Players should never play darts under the influence of drugs or alcohol.
